

2025 NATIONAL CONFERENCE

Unlocking the food allergy future

Saturday, May 10, 2025, Glendon College, Toronto, Ontario

8:30 am - 5:00 pm, Exhibit hall: 7:45 am - 6:00 pm

Timothy Caulfield

Professor of Health Law & Science
Policy, and Bestselling Author

Keynote speaker: Beyond the noise

Hear about the critical role of scientific consensus in an era of misinformation.

Dr. Philippe Bégin

Opening session: Shifting paradigms

Discover how science is informing the future of food allergy and what has evolved over the last decade.

Dr. Julia Upton

Delabelling and diagnostics

Gain insights in food allergy testing that will help you better understand your food allergy and know if you or your child have outgrown it.

Dr. Edmond Chan

The evolution of immunotherapy

This session is a deeper dive into immunotherapy and a look at what's available now and in the immediate future.

Dr. Moshe Ben-Shoshan and Dr. Wade Watson

Demystifying anaphylaxis:

Removing fear and gaining control

Gain confidence in understanding signs and symptoms of anaphylaxis and learn when to use epinephrine versus Benadryl®, how to overcome barriers, and get empowered to take control in emergency situations.

Dr. Linda Herbert

The emotional side of food allergy

Learn strategies to tackle anxiety, social challenges, and build confidence.

Dr. Susan Waserman

Panel discussion with industry experts

Explore access to accurate ingredient information in foodservice environments and with packaged foods.
